DATE MAILED: 06/01/2005

Please find below and/or attached an Office communication concerning this application or proceeding.

**Advisory Action
Before the Filing of an Appeal Brief**

Application No.

09/823,646

Applicant(s)

LAKSONO, INDRA

Examiner

Dave Czekaj

Art Unit

2613

--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

THE REPLY FILED 28 March 2005 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.

1. ☒ The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:

- a) ☐ The period for reply expires _____ months from the mailing date of the final rejection.
b) ☒ The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.

Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

NOTICE OF APPEAL

2. ☐ The Notice of Appeal was filed on _____. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

AMENDMENTS

3. ☐ The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because
(a) ☐ They raise new issues that would require further consideration and/or search (see NOTE below);
(b) ☐ They raise the issue of new matter (see NOTE below);
(c) ☐ They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
(d) ☐ They present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: _____. (See 37 CFR 1.116 and 41.33(a)).

4. ☐ The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324).
5. ☐ Applicant's reply has overcome the following rejection(s): _____.
6. ☐ Newly proposed or amended claim(s) _____ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).
7. ☒ For purposes of appeal, the proposed amendment(s): a) ☐ will not be entered, or b) ☒ will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.
The status of the claim(s) is (or will be) as follows:
Claim(s) allowed: _____.
Claim(s) objected to: _____.
Claim(s) rejected: 1-54.
Claim(s) withdrawn from consideration: _____.

AFFIDAVIT OR OTHER EVIDENCE

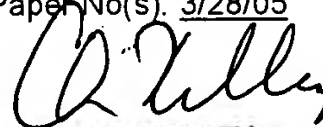

8. ☐ The affidavit or other evidence filed after a final action, but before or on the date of filing a Notice of Appeal will not be entered because applicant failed to provide a showing of good and sufficient reasons why the affidavit or other evidence is necessary and was not earlier presented. See 37 CFR 1.116(e).
9. ☐ The affidavit or other evidence filed after the date of filing a Notice of Appeal, but prior to the date of filing a brief, will not be entered because the affidavit or other evidence failed to overcome all rejections under appeal and/or appellant fails to provide a showing of good and sufficient reasons why it is necessary and was not earlier presented. See 37 CFR 41.33(d)(1).
10. ☐ The affidavit or other evidence is entered. An explanation of the status of the claims after entry is below or attached.

REQUEST FOR RECONSIDERATION/OTHER

11. ☒ The request for reconsideration has been considered but does NOT place the application in condition for allowance because:
See Continuation Sheet.

12. ☒ Note the attached Information Disclosure Statement(s). (PTO/SB/08 or PTO-1449) Paper No(s). 3/28/05

13. ☐ Other: _____.

CHRIS KELLEY

SUPERVISORY PATENT EXAMINER
TECHNOLOGY CENTER 2600

On page 13 of applicant's remarks dated 8/30/04, the applicant stated that compressor or encoder is not found in the claims and therefore does not need to be shown in the figures. However, "compressing a first display stream" can be found in claim 1. Therefore, where is the compressor in the figures located?

On page 4, applicant argues that Girod fails to disclose the video signal is provided directly to transmission channel. While the applicant's points are understood, the examiner respectfully disagrees. See for example Girod figure 6A, wherein the video signal is provided to the transmission channel. Further, the examiner notes that providing the video directly to the transmission channel is not found in the claims. Therefore the rejection has been maintained.

On page 4, applicant argues that Girod fails to disclose determining if predetermined criteria is met prior to compression of the video signal. While the applicant's points are understood, the examiner respectfully disagrees. See for example Girod column 7, lines 50-67 – column 8, lines 1-14, wherein the predetermined criteria is the amount of available bandwidth. Further the examiner notes that determining a predetermined criteria before compressing is not found in the claims. Therefore the rejection has been maintained.

On page 5, applicant argues that Girod fails to disclose the video signal is split into a plurality of display streams. While the applicant's points are understood, the examiner respectfully disagrees. See for example Girod figure 2, wherein the plurality of streams is the streams going to 112a, 112b, and 112c. Therefore the rejection has been maintained.

On page 7, applicant argues that Girod fails to disclose real time simultaneous display of the video. While the applicant's points are understood, the examiner respectfully disagrees. See for example Girod column 10, lines 17-26, wherein Girod discloses real time transmission. Therefore the rejection has been maintained.

On page 8, applicant argues that the office action does not direct the specific limitations recited by claim 49. While the applicant's points are understood, the examiner respectfully disagrees. Only the new limitations set forth in the rejection for claims 10-12, 49-52, and 54 were discussed. Similar/identical limitations were discussed in previous rejections.

On page 10, applicant argues that Keren fails to disclose display data from a plurality of sources. While the applicant's points are understood, the examiner respectfully disagrees. See for example Keren paragraph 0365 and figure 4, wherein the plurality of sources are the viewing channels, pay-per-view, telephone, and audio.

On page 11, applicant argues that Putzolu fails to disclose a round robin method. While the applicant's points are understood, the examiner respectfully disagrees. See for example Putzolu column 7, lines 1-15 where Putzolu discloses a round robin method. Therefore the rejection has been maintained.
